Hours:

Description of position: (include experience requested, wages, hours, duties, etc.)

We are a general practice that has practiced a high level of dentistry since the beginning of 2014. We have one DVM that has led the charge on this and we are performing thorough tooth-by-tooth exams, full mouth dental radiographs, high level of anesthesia and monitoring, and procedures including extractions, closed and open root planning, and bonded sealants. We have lots of room for growth in efficiency and are looking for a highly trained veterinary technician who can help us grow our dental practice. We want to continue providing high level of dentistry but become more efficient that we can do more than 1-2 dentals per day. Pay rate is negotiable. We are very excited about finding a highly trained certified veterinary technician that has a passion for veterinary dentistry and is looking for a career at a clinic.

Posting date: July 5, 2017

All job posts will be held for 90 days, at which time it will be removed. If further posting is necessary, please resubmit your Info Sheet.
